## About me

Full Stack Developer with 4+ years of experience in frontend and backend technologies. Proficient in various languages and frameworks, I handle the full development process, from design to deployment. A strong team player with excellent problem-solving skills, I build dynamic, scalable applications. With a Bachelor's in Electrical Engineering, my background in circuits, automation, and control systems enhances my approach to software. This expertise helps me develop optimized, high-performance, and reliable solutions that drive innovation and efficiency.

## My education

Technical Faculty of Bihac

I completed the first cycle of full-time study lasting 8 semesters / 4 years - 240 ECTS credits at the Faculty of Engineering, University of Bihać in the study program Electrical Engineering, Department of Informatics and gained the academic title and professional title of Bachelor of Electrical Engineering.

### Landwirt.com (May 2022 - Present)

After the release of Nuxt 3, I transitioned to a full-time web developer role at Landwirt.com, focusing on platform migration and feature enhancements. I develop new functionalities, optimize performance, and collaborate with cross-functional teams to ensure a modern, scalable, and high-performing user experience

### Landwirt.com (Jan 2022 - Present, Freelance)

Contributed to developing a new platform version using Nuxt 2 and Laravel. Designed and implemented scalable, high-performance features while ensuring a seamless user experience. Focused on clean, efficient code, best practices, and close team collaboration in full-stack development.

### IDK Studio (Mar 2021 - Dec 2021)

Worked on diverse projects, staying updated with the latest web technologies and trends. Designed, developed, and maintained websites and applications using Laravel, Vue.js, PHP, JavaScript, and WordPress. Focused on building dynamic, responsive, and user-friendly solutions with an emphasis on code quality and performance optimization

### NTH Mobile (May 2019 - Jun 2020)

Gained hands-on experience in Premium SMS services, overseeing technical operations and ensuring seamless service delivery. Provided customer support, resolved technical queries, and built strong client relationships to enhance satisfaction and retention. Developed key skills in communication, problem-solving, and operational efficiency

### IDK Studio (Dec 2017 - Jun 2018, Intern)

Focused on building a strong foundation in web development, learning to analyze project requirements and implement solutions. Gained hands-on experience with HTML, CSS, JavaScript, and jQuery for interactive, responsive websites. Also deepened backend development skills with PHP, learning the fundamentals of dynamic applications and professional collaboration.

## My skills

---

Nuxt	Html & CSS
Vue JS	Java script
Laravel	MySql
Tailwind CSS	jQuery
Bootstrap	Git Source Control
PHP	Figma

## Services and applications

---

Front-end Development	Database Management
Back-end Development	Unit Testing & Error Fixing
Web & Mobile Design	API Integration
Responsive Design	Performance Optimization

## Languages I know

---

Bosnian (Native)  
English  
Deutsch
